Phone (901) 757-7200 Fax (901) 757-7292 www.germantown-tn.gov

August 9, 2013

Electrical pedestal service for Germantown Festival Grounds:

1-50amp 4 wire receptacle
1-30amp 3wire receptacle
1-20amp duplex receptacle

20amp circuits require 12 gage cord.
30amp circuits require 10 gage cord.
50amp circuits require 6 gage cord.

These are minimum requirements for properly sized cords. When splitters or surge protectors are used within the line, the percentage of overloading the circuits increase drastically.

Cords are not supplied by the City.
